

It is necessary to organize remote collaborators' work ...

40% of European citizens working from home in 2020 (Eurofound 2020)

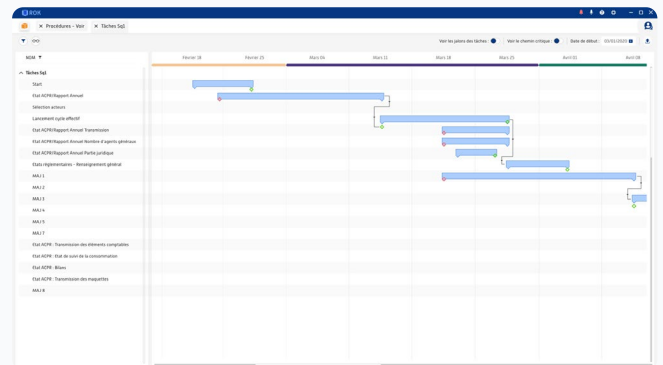

**Manage and lead teams:
directly on your platform**

ROK allows you to instantly create both endogenous and exogenous project communities and provides them with project management, collaboration and Lean Management tools.

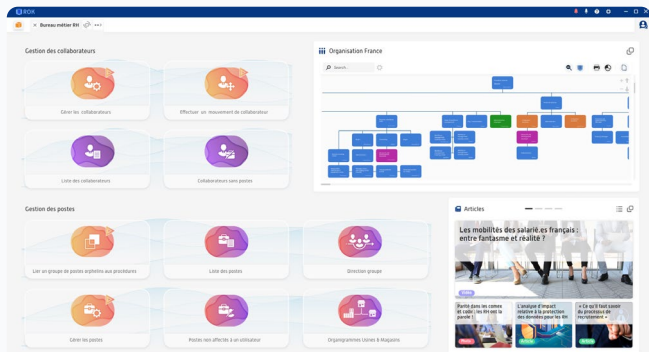

Remote work has thus become more fun, controlled and animated through user friendly & complete interfaces: chat, video, kanban, shared planning, followed by Gantt and Pert types.

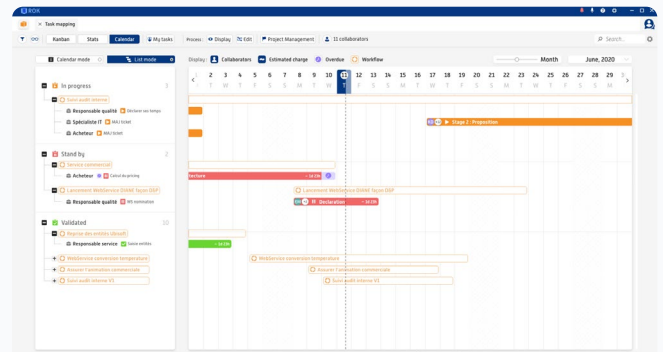

**Follow your teams through powerful
tools (Kanban, Gantt, Pert)**

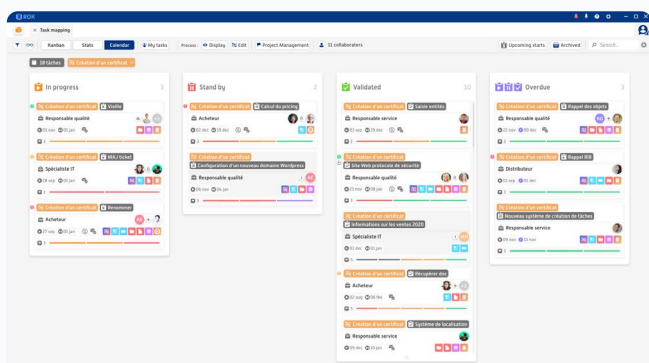

**Provide your employees with
Dashboards giving access to the
various monitoring & reporting**

**Track and share the work in sync
with your other calendars**

**Organize, distribute and monitor
the various assigned tasks**

**Collaborate with integrated
communication tools
(mail, chat, video)**
